## **How to use Upneeq**

- Cut open foil wrapper and remove single-use vial.
- Apply one drop of Upneeq in each eye once a day.
- Do not let the tip of the vial touch your eye or any other surface.
- Vials should not be re-used after opening and should be thrown away after applying drop(s).
- If you wear contact lenses, remove them before applying Upneeq eyedrops. You may put them back in 15 minutes after applying Upneeq.
- If more than one topical eye medication is being used, the medications should be administered at least 15 minutes between applications.
